World Penguin Day is on the first day of the Adélie penguins' annual migration to the North.

The Adélie penguins are common along the entire coast of the Antarctic continent, which is their only habitat.

Researchers at the McMurdo Station on Ross Island noticed that Adélie penguins always left on April 25th for their annual northern migration and they thought it would be fun to have a holiday to celebrate the occasion.

You can celebrate World Penguin Day by visiting a penguin exhibit at a local zoo. It's a great opportunity to learn more about penguins, what they eat, how they socialize, and the environment they live in.

National Autism Awareness Month
April 2022

Autism Awareness Month celebrates and promotes acceptance for persons on the Autism spectrum. Greater awareness can help them reach their full potential!

World Autism Awareness Day
April 2, 2022

World Autism Awareness Day highlights the need to improve the quality of life of those with autism, so they can lead full and meaningful lives!

In 2007 the United Nations General Assembly unanimously declared April 2nd as World Autism Awareness Day.

I would like to talk to you about Earth Day, an annual event celebrating Earth and all its beauty. How did Earth Day start and how did it become a worldwide movement? It started with an oil spill in the Santa Barbara Channel in 1969 that released three million gallons of oil. The spill killed or injured many seabirds, sea lions, and seals. The city of Santa Barbara created an event to celebrate the environment under the name of Santa Barbara Environment Rights Day. It highlighted the importance of protecting our natural environment. Wisconsin Senator, Gaylord Nelson, who attended the event is credited with creating Earth Day on April 22, 1970. Earth Day is now the largest single-day honoring Earth, the very planet we live on. So, let’s take care of the Earth and all its beauty!

Happy Easter!

Ramadan is a month of fasting, prayer, giving, and self-evaluation observed by over a billion Muslims worldwide. The month lasts 29-30 days depending on the sightings of the crescent moon. During Ramadan, believers fast and abstain from things like water that people take for granted in-order-to reflect on the purpose of life and to have empathy for others. The daily fast is followed by a meal taken at sundown called a Iftār.
